

52 Super Series 2024

**NOTIFICATION 4**

**23 September 2024**

All teams please support and honour the following Support Boat restrictions:

1)

**24<sup>th</sup> September 2024:**

Ribs of Alegre, Alpha+, Crioula, Gladiator, Interlodge, Paprec to follow the left-hand side of the course looking upwind going up or down and the other ribs, except the drone rib (Phoenix, she is free to position as is optimum for her job) the right-hand side of the course.

**25<sup>th</sup> September 2024:**

Ribs of Alegre, Alpha+, Crioula, Gladiator, Interlodge, Paprec to follow the right-hand side of the course looking upwind going up or down and the other ribs, except the drone rib (Phoenix, she is free to position as is optimum for her job) the left-hand side of the course.

**ETC:** So, each day to alternate course side.

2) To slow down to under 5 knots the final 400 meters to the marks you are aiming for and at all times leave ample room and stay outside the course area.

3) Not to leave your position at the top or start/spreader marks till the LAST boat has rounded/started and please stay well clear of the back of the fleet. They are most effected by chase boat wake while trying to catch up, which is demotivating if not infuriating.

4) Any other self-restriction will be HUGELY APPRECIATED. Think of speed limits, certainly at lower wind strength, stay behind the fleet and not going all the way to the top or spreader mark reducing the number of boats at the marks.

Thank you for your time and support,

Rob Weiland
